

## RENEW CLINIC

SINEAD GALLAGHER AND JEANETTE DUNNE, CO-FOUNDERS

Renew Aesthetic Clinic was established in 2006 by Sinead Gallagher and Jeanette Dunne. Sinead and Jeanette are both Registered General Nurses and trained in St Vincent's University Hospital, Dublin, and together have more than 24 years of combined experience in the medical industry.

Renew specialises in non-surgical aesthetic treatments such as anti-wrinkle injections, facial fillers, laser treatments, medical peels, microdermabrasion, cellulite-busting endermologie and colonic irrigation, with each client's needs being met with discretion.

Staffed by fully qualified doctors and nurses, the clinic is dedicated to offering a discreet and personalised aesthetic – privacy and confidentiality is of utmost importance and particular attention is assigned to each customer.
